

Unlicenced Station Engineer / Aircraft Mechanic

Airtask Group provides bespoke mission-based aviation solutions to Government and Commercial customers.

We are currently seeking to recruit a permanent full-time Unlicenced Station Engineer / Aircraft Mechanic to provide engineering support to our BN2 Islander aircraft which operate lifeline flight services to the local communities on the beautiful west coast of Scotland. This role will be based primarily in Oban and/or Stornoway allowing the successful applicant to take advantage of the wonderful work-life balance this area affords.

From time to time there will be a requirement to travel to our other operating bases, particularly Shetland and Inverness to provide additional support to our engineering teams, as well as assisting in the recovery of aircraft with technical issues around our network.

The ideal candidate will have knowledge of aircraft maintenance, modification and repair. Additionally, candidates will have knowledge of general aircraft maintenance and environment processes (FOD control, tool control, Health & Safety and COSHH) with a positive attitude to safety and an understanding of SMS and their role within the system.

We are particularly keen to hear from skilled aircraft Mechanical / Avionics Technicians working towards their UK CAA Licence with experience of performing aircraft maintenance from both the military and/or commercial aerospace environments.

Candidates will be dedicated and self-motivated, able to work under their own initiative together with the flexibility and ability to work to strict deadlines.

Key responsibilities:

- Assemble, disassemble and/or modify systems by changing / removing / replacing or upgrading aircraft components to correct failures or implement changes
- Troubleshoot complex aircraft systems to isolate mechanical / avionic faults and repair faulty components within guidelines published in authorised maintenance documents

It is essential that potential candidates have the following skills and experience:

- Recent aircraft maintenance experience either in a line or base environment
- Proficient computer skills in particular the Microsoft Office suite
- Working experience of aircraft maintenance software ideally the "Blue Eye" maintenance system
- Hold a full, clean driving licence
- The right to live and work in the UK
- The ability to provide a criminal record check (Disclosure Scotland)

Please refer to our Company website for further information and to view our Job Applicant Privacy Notice www.airtask.com

If you meet the criteria above and are seeking a new challenge, please apply in writing with your CV and salary expectations to:

Mrs D O'Neill - Head of HR
